## PROJECT

**Project name-** Helbacks

**Client name-** HGS Holding, USA

**Domain :** E-commerce domain

### **Project description-**

Their website is not overwhelming and you can easily navigate through it. That makes a lot of sense considering that their market is adults who do not have the luxury of time to browse. That's a great technique you can use as well. Always understand the behavior of your audience and pattern your website design from there.

### **Roles and Responsibilities-**

- Discuss and clarify requirements provided by the Product Manager.
  - Involved in requirement gathering sessions and developing web applications using Agile Methodology
  - Design the Solution with Web Services and Java technologies.
  - Expose web services implemented using Restful web services.
  - Extensively used Debugging TypeScript Using Chrome Developer Toolbar.
  - Design UI with web technologies provided by UX team.
  - Integrate Front end with endpoints exposed by web services.
  - Fixing the bugs and improving the product.
  - Worked on highly advanced UI design &
- Responsible for developing the UI pages using HTML5, CSS3, JavaScript, Angular, Bootstrap, JSON, jQuery and AJAX.
- Used Routing Guards to Authenticate and Authorize user.
