### Description:

This Booking System Project That Allows User to Check for Various Rooms and Book Available Rooms by Taking the Room Payment. The Purpose of This Study Is to Develop and Implement an Online Hotel Reservation System for Hotels That Will Replace the Manual Method of Booking for Hotel Rooms. The Previous System for Booking Rooms Were Faced with So Many Problems Like Delay in Processing the Customer Booking or Paying for Rooms That Is Below or Beyond His Standard, Causes Difficulty for Emergency Booking. This Hotel Management Project Provides Room Booking, Staff Management and Other Necessary Hotel Management Features. The Use of Online View of Room Rates and Uploading of Available Rooms and Facilities Was Used for The New System So That the Customer Can View and Make His Choice Before Arrival, And in The Case of Emergency Travelling. This New System Assisted the Hotel Owners in Managing Their Hotels, Because They Can Also Regulate the Receptionist Moves and Avoid Fraudulent Activities. It Also Increased the Efficiency of The Hotel Managers. And, Their Profit Margin Also Increased. The System Allows the Manager to Post Available Rooms in The System. Customers Can View and Book Room Online. Admin Has the Power of Either Approving or Disapproving the Customer's Booking Request. The Solutions Have Been Provided for The Better Management to The Organization and Ease of Access to The Customer.
